

# PROTEIN TRACKING SYSTEM

LabCollector LIMS Add-on

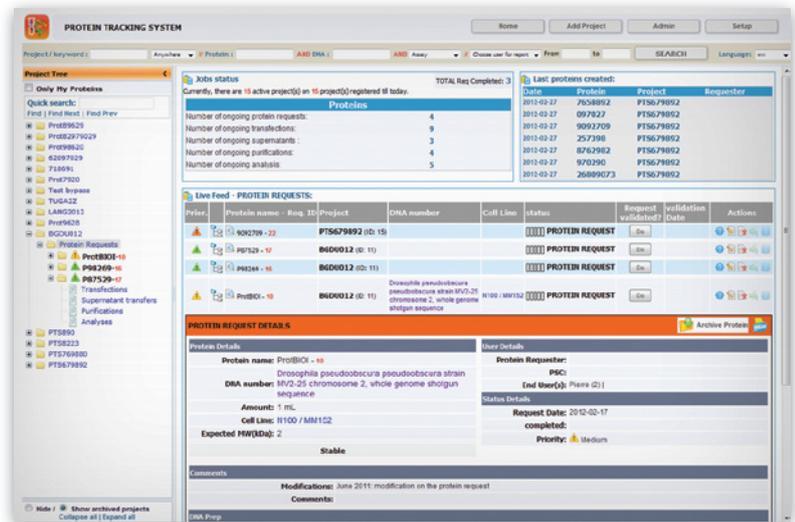

## Protein production facility management

**Protein Tracking System (PTS)** is a network based application for protein production, purification and analysis management.

As a project manager, PTS allows the lab staff to follow different processes and task progressions in an organized interface.

**PTS** is suitable for academic labs, biotech and pharma companies interested in quality management of their protein production activities and interested in protein production followup.

- Quick access dashboard
- Unlimited projects/jobs
- Custom interfaces/forms
- Manage user level permissions
- Archive old projects
- Print client reports
- Link to LabCollector data/storage
- Easy activity monitoring
- Multilanguage interface

Proteins: PTS679892
